

Business Analyst

Business Analysts are responsible for operational realization of projects, and ensuring that they are delivered following the agenda set by the Manager.

About Bridgewater

Bridgewater Consulting is a Brussels based office which has been created in 2009. We are specialized in value creation and cost optimization targeting large companies. Our innovation mindset and our No Cure No Pay model are key to our success and clearly differentiate ourselves in the consulting practice.

Our firm is growing quickly, and we are therefore looking a **Business Analyst** who will play a crucial role in the team and lead the operational realization of the cost reductions opportunities and processes improvements.

Bridgewater is a quite young start-up. Nevertheless, we offer an attractive salary with many advantages as well as a nice, young and dynamic work environment.

Responsibilities:

- Supporting Consultants in the discovery of the underlying business need to be addressed and information related to the product and project requirements, often through conversations with the clients.
- Researching, structuring and solving complex analytical problems, often using both standard software packages and bespoke tools developed by Bridgewater
- Preparing and managing Requests for Information/Requests for Proposals
- Conducting market research, contract compliance reviews and ad-hoc problem solving where appropriate
- Performing cost analysis and savings modelling
- Preparing and delivering presentation materials (e.g. slides, reports) for stakeholder communication and meetings
- Managing/coordinating delivery of one or more projects/ workstreams to deliver client benefits within tightly defined deadlines
- Developing and implementing improved processes

Reporting

The Business Analyst will report directly to the Consultant and to the Manager and update the in-house Project Management documents:

- Timesheet
- Project Sheets
- Checklist Project

Skills Development

Business Analysts will have access to traineeship and study material regarding Project Management, Procurement Knowledge, Negotiation and Languages.

Languages

Very good knowledge of Dutch, French and English
